Recommendations:

After consultation with the public health nurse, and a review of the information attached on CFSIS, it was determined that there does not appear to be a known risk to the children residing in Samantha's care at this time. Therefore this matter is being closed at CRU, until further information or a request for services is brought to the Agency's attention.

HISTORY:

Samantha became a ward of Cree Nation Child and Family Services in 1993. Samantha was in care as a child due to her mother's alcoholism, neglect, abandonment and abuse.

The family has an extensive history with the agency starting when Samantha had her first child [REDACTED] in '98. [REDACTED] was apprehended at birth and eventually became a Permanent Ward. It became apparent that Samantha could not parent once she was provided an opportunity to do so in a supported living situation. In April '00 Samantha gave birth to a second child, Pheonix who was apprehended at birth. Pheonix was returned to parents 4 months later. In April '01 Samantha gave birth to [REDACTED]. Concerns were expressed regarding alcohol abuse and domestic violence. [REDACTED] died in July '01 from natural causes while in Steven's care. Samantha and Steven separated sometime around June '01 and Pheonix remained with Steven until June '03 when she came into care due to parents abusing substances. Pheonix was returned to Steven in October '03.

In May '04 an Employment and Income Assistance worker contacted the agency to report that Samantha wanted Pheonix added to her budget as she

was in her care. The EIA worker was concerned as she recalled that there were concerns about Samantha's ability to provide care. The EIA worker was not specific in the concerns identified, but simply wanted an assessment completed to determine if Pheonix was safe in Samantha's care.

Intake made repeated efforts to meet with Samantha, but was not successful in doing so until July 13, 2004. Samantha denied abusing substances and maintained that she was coping well. Pheonix appeared healthy and well cared for and Samantha did not present as a crack user would be expected to -- she was not jittery nor was she thin and drawn looking. She reported that Pheonix came into her care in November '03 due to Steven allegedly abusing substances. Pheonix reportedly stayed with friends for a month or so at the beginning of this year while Samantha "traveled". Samantha declined offers of service, but requested information on resources in the community be sent to her.
