Aug 14/00

W - Steve S + Samantha - 164 Mopms

- They were both waiting for me outside - I asked to go inside to talk - Samantha was very resistant about going inside - she refused to initially - she said it was messy in brief.

- I advised both of them that we need to talk + not prepared to do so outside, + offer them a chair to meet today or tomorrow when baby visits.

- Samantha said we could go inside today

→ inside the apt. - the living room + kitchen was neat + tidy - I challenged her on comment that apt. was messy + she said it was the kitchen

- I talked about Marie's role + important factors to work w Marie + that means being here when she comes - setting goals to focus on meeting parenting needs.

Aug 14/00

- they have had a new plane to line
on Mapus - closer to Burlington

- need little to weepere w: baby
return - I suggested they have
worker call me - they will
ask her.

- we discussed paper - I advised
I would check to see what
else I can do - maybe get
it up ourselves - I made it
clear it is still an expectation
that it be completed w: after
baby is returned.

- favor me end of meeting ~~that~~ Sam
appeared less upset
in present.
